U. S. EXPORTS OF BEEF BREEDING CATTLE,
JULY-DECEMBER, AND ANNUAL 1963

The U. S. exports of beef breeding cattle in 1963, a total of 12,876 head, were the highest since 1960, and an increase of 30 percent over 1962. The 1963 increase was primarily due to the substantial increases in the exports to Venezuela and Canada. These increases were partially off-set by the decrease of exports to Mexico. However, Mexico remains to be the leading export market for beef breeding cattle, taking 4,877 head or 38 percent of the total shipments. Venezuela ranks second as the 1963 beef cattle outlet with 3,223 head or 25 percent of the total, and Canada ranked third with 2,430 head, 19 percent of the total.

Exports also increased substantially in 1963 to Honduras, Guatemala, the Republic of South Africa, and Ecuador as compared with 1962. Increased shipments to the Central and South American countries are primarily attributed to the livestock development programs which have been instituted in these countries in recent years through loans from the Export-Import Bank, the Inter-American Development Bank, and other international loan agencies.

During 1963, the Brahman was the most important beef cattle export breed with a total of 4,722 head as compared with only 2,891 in 1962

and 2,136 in 1961. The Hereford breed ranked second in importance with 4,527 head in 1963. The Angus breeding cattle ranked third in line with a total of 1,286 head as compared with 1,311 in 1962 and 1,487 in 1961. Santa Gertrudis showed a substantial increase exporting 1,248 in 1963 as compared with 903 in the year before. There was a minor increase in exports of Charolaise to 315 as compared with 250 in 1962. During 1963, Brangus exports totaled 350 head as compared with only 28 in 1962. Mexico was the biggest outlet for the Brangus breed taking 239 head.

U. S. beef breeding cattle were exported to 32 foreign countries in 1963 with Brahman cattle going to 21 countries throughout the world including the Far East and Africa. Most important outlet for Brahman was Venezuela with 2,750 head during 1963. In 1962 Venezuela only took 1,018 head of Brahman. Santa Gertrudis breeding cattle were shipped to 19 foreign countries in 1963 with Venezuela also being the most important outlet with 438 head.

Texas continued to be the leading export state by a wide margin; exporting 7,128 head or 55 percent of the total in 1963. Florida ranked second as a beef breeding cattle export state with 1,396 or 11 percent of the total. Arizona ranked third with 846 head or 7 percent of the total. A total of 38 states contributed to the exports of breeding cattle from the United States in 1963.
